Provincial Highways Distance Table 1982

King's, Secondary Highways and Tertiary Roads

FOREWORD

The distances given in this booklet are the official road distances for the King's and Secondary Highways and the Tertiary Roads in Ontario as of 1st May 1982. The distances are given accumulatively in both directions in kilometres.

All highways are listed in numerical order, with the Queen Elizabeth Way being given first. The point descriptions along each highway are listed from east to west or from south to north depending on the general direction of the highway. An X opposite a point description indicates that it is the chosen centre of the municipality named.

Highways in the 400 series, together with the QEW, are generally multilane, divided, controlled-access routes. Highways numbered from 2 up are generally conventional highways of two or more lanes.

Highways in the 500 and 600 series are Secondary Highways. Roads in the 800 series are Tertiary Roads. Overlapping highways are shown with a slash between the highway numbers (e.g.: Hwy. 7/8 or Hwy. 11/17, etc.).

Commencing in May 1982, Interchanges on most Freeways (QEW and 400 Series) are numbered on the basis of accumulated distance from the highway starting point.

Note that

On Highway 400, the accumulated distance Interchange Numbers allow for travel to Toronto City Hall and on Highway 401, the accumulated distance Interchange Numbers allow for travel to the Ambassador Bridge Plaza in Windsor.

The explanations of various abbreviations used in the table are given on the following page.

Abbreviations — Distance Table
